VINYL SINGLE HUNG WINDOW

DECADES OF PROVEN PERFORMANCE

The Comfort Series model 6100 single hung is a new generation window for Gerkin! After decades of proven performance with our single hung, we found a way to make it even better! Here at Gerkin, we only make changes in our products to ensure better performance. Many competitors are working hard at seeing how cheap they can build a single hung. We believe our customers want a quality product and the best value. That's why we build our windows to perform among the best in the industry. The 6500 window compliments the 6100 single hung as a stand alone fixed window or can be used to mull fixed and specialty shapes in order to create custom configurations.

VINYL SINGLE HUNG WINDOW

6100 SERIES | FEATURES

The 6100 is highlighted by a stylish 2 1/2" beveled frame design, fusion welded sash and frame with triple weather seals. We have designed this window to perform at a very high level through the use of multiple vinyl chambers, internal aluminum reinforcements, heavy-duty block and tackle balances as well as warm edge technology glass! If you're looking for a high performance single hung window with easy operation and low maintenance all at a great value, look no further than the Comfort Series 6100!

**Multiple Seal Weatherstripping:**

Triple fin-seal weatherstripping on the jambs with additional weatherstripping at the interlock provides a tight air and water seal at the sash.

**Sloped Sill Design:**

Our single hung utilizes a fully sloped, weepless sill design. This provides for excellent drainage and air infiltration performance. Plus, there are no weeps to get plugged!

**Interlock:**

The 6100 has a full interlock with fin seal weatherstripping at the meeting rail. Its design provides a positive seal and easy operating engagement.

**Extruded Screen:**

Gerkin offers more strength in its screen frame in order to achieve greater screen durability. The screen is removable without removing the sash.

**Balance / Tilt Latches:**

6100 operates on a smooth operating block and tackle balance system. The tilt latches are recessed into the sash for a more attractive appearance.

**Frame:**

2 1/2" frame depth and a slimline design with exterior bevels provide strength and beauty. Our frame and sash are fully fusion welded extruded UPVC.

**Aluminum Reinforced Sash:**

The sash is reinforced with extruded aluminum stiffeners in the full perimeter of the sash. The sash is also glazed on the exterior for a more attractive appearance on the interior.

**LoE³ Glass:**

The 6100 single hung comes with 3/4" insulated clear or argon filled LoE³ high performance glass. Double LoE or laminate glass options are also available.

TESTING

We go to great extremes to make sure our Comfort Series Vinyl window and door products are the best they can be. Our products are tested by independent laboratories to ensure quality and performance. Our windows and doors are rated and certified by the American Architectural Manufacturers Association (AAMA) and the National Fenestration Rating Council (NFRC). Our Gerkin vinyl windows also carry the Energy Star label from the Environmental Protection Agency and the U.S. Department of Energy.

For more information about Comfort Series® vinyl windows and doors visit gerkin.com.
